WALTER D. CRONIN.

# KING EDWARD'S SCHOOLS.

## CHAPLAIN'S REPORT, 1876.

To the Right Worshipful the PRESIDENT, the Worshipful the TREASURER, and the GOVERNORS of King Edward's Schools.

MY LORDS AND GENTLEMEN,

I have the honour to present to you my Report on the state of your Schools for the year 1876. That year has been so remarkably free from incidents of an exceptional character, that I have little more to do than record the number of admissions and discharges, together with the destination of the inmates on leaving School.

During the year there were—

| ADMITTED. | | DISCHARGED. | |
|---|---|---|---|
| Boys | 65 | Boys | 57 |
| Girls | 50 | Girls | 53 |
| Total | 115 | Total | 110 |

There were remaining in the School, at the end of the year, 154 boys and 157 girls, making a total of 311 children, in addition to two male and three female pupil teachers.

I have the satisfaction to state that our senior pupil teacher in the Boys' School, (the orphan son of a former official) obtained a very good place in the first class at the examina-

tion for Queen's Scholarships in June last, and will enter upon his residence at Winchester Training College during the present month. He also obtained the Diocesan prize for Religious Knowledge. Our two former pupil teachers having successfully completed their course of training, are now Masters of important Schools, to which they were appointed, on the recommendation of the Principals, immediately after leaving College.

The inmates discharged during the last year have been disposed of as follows:—

BOYS.

| | |
|---|---|
| To the Army .. .. .. .. .. .. .. .. | 13 |
| To the Royal Navy .. .. .. .. .. .. .. | 3 |
| To Situations (various) .. .. .. .. .. .. | 20 |
| Removed by their Friends without Situations .. | 19 |
| Returned to Friends, unfit for School .. .. .. | 1 |
| Died .. .. .. .. .. .. .. .. .. .. | 1 |
| | 57 |

GIRLS.

| | |
|---|---|
| To Situations .. .. .. .. .. .. .. .. | 49 |
| Emigrated .. .. .. .. .. .. .. .. .. | 1 |
| Removed by their Friends without Situations .. | 2 |
| Returned to Friends, unfit for School .. .. .. | 1 |
| | 53 |

I regret to say that the disinclination of the parents to allow the boys to enter the naval and military services still continues. It seems to have become the practice to remove them from the School just when they are becoming the proper age to enter the Navy, in order that they may obtain some place near home, and contribute to the support of the family; consequently I have sent only three this year to the Training Ship at Portsmouth. I understand that the same cause is operating elsewhere, and, in consequence of the falling off of

the entries, the Admiralty has been obliged to lower the educational standard as well as the standard of height. Frankly, I must state, that for the greater number of "situations various" recorded above, I am not responsible. They are situations of a temporary character, provided by the boys' own friends, and such as do not entitle them either to an outfit of clothes on leaving School, or to subsequent rewards for good conduct in their places. This circumstance has already begun to tell on the number of rewards given by the Committee, and we must look for a considerable reduction in future years. However, although the first start in life of these boys is not so satisfactory as I could have wished, we must not hastily conclude that our labours on their behalf have altogether been thrown away. I have not heard of any who have fallen into bad ways, and we may, therefore, hope that the plain, but useful, education they have received, their moral and religious training, as well as the habits of discipline and regularity they have formed, will exercise an important and salutary influence on their career in the world. I should like just to mention here, that one of our former inmates, who left us for the Navy eight years ago, and had received his three rewards for good conduct in the Service, volunteered for the Arctic Expedition. He has returned home in good health, and on a recent visit to his old School, gave us a highly interesting and intelligent account of his adventures with the sledging party.

Although we have lost one boy by death—a lad of a naturally weakly constitution—the general health of both Schools has been fairly good, and we have had no epidemic in either. Nor have I anything to complain of in the moral character of the inmates. They give us very little trouble

beyond the indispensable constant supervision, and visitors to us usually remark the bright, cheerful, and healthy appearance of the children as worthy of commendation.

I now transcribe the Reports of the Inspectors; the Examiners being the same as in the year 1875.

Copy of Report of Girls' School—

"THE MAGDALEN,
STREATHAM. S.W.
*6th July*, 1876.

MY DEAR SIR,

For the information of your Committee I beg to state that I examined the Girls' side of the School of the King Edward's Schools on the 27th June.

I found, last year, that the School generally had made a marked advance upon previous years, and this advance was generally and fully maintained on the 27th ultimo. The knowledge of the girls of the first class in Bible history, history of England, geography of Great Britain, and arithmetic, I conceive to be ample for girls of their class. The reading generally was clear and intelligent; the writing clean and neat.

I found the dormitories and class rooms clean and fresh, and the persons and dress of the children tidy and clean; the whole School reflecting great credit on its Teachers and Managers.

I am, my dear Sir,
Truly yours,
J. WALLACE.

J. Baggallay, Esq."

BOY'S SCHOOL—Copy of Inspector's Report—

"*June 29th*, 1876.

I have examined the School with great pleasure, and I am glad to be able to report favourably in every respect. The boys are very

efficiently taught and trained, and this is proved not only by the creditable manner in which their general examination was passed, but by the smartness and intelligence evinced in their replies to *vivâ voce* questions in geography, arithmetic, and meanings of words. Their knowledge of Scripture, and of the fundamental doctrines of the Christian Faith is decidedly good.

Singing is excellent, and I am glad to find that it is not confined to picked voices, but is joined in by the whole School. I regret that the band has been given up, and I trust this is owing to temporary circumstances.

Spelling in some of the lower classes is rather weak, and I think the pronunciation in reading, generally, might be more carefully attended to. The cheerful, happy, and healthy appearance and manner of the boys are perhaps the best test of the credit which is due to the whole staff, whether School Teachers, or Industrial Trainers.

WYNDHAM HOLGATE,
*H.M. Inspector of Poor Law Schools.*

To the Governors
King Edward's School, Witley, Godalming."

Through your liberality in granting a sum of money for the purchase of Instruments, I have been able to organize a Brass Band. The boys take great interest in the practice, and already begin to play very fairly. This will form an agreeable recreation for the whole School in the summer months, and, (if I am not hindered by the parents) I shall be able to dispose of a large number of boys in the Army, where the services of boy-musicians are in great request.

Owing to the prevalence of scarlet fever in the Boys' School during the winter of 1875—6, we were obliged to postpone our Annual Concert to Easter. It took place in the month of April, and was, as usual, largely attended by our neighbours.

The Lord Bishop of WINCHESTER kindly held a special Confirmation in the Chapel of the Girls' School, on Friday, November 24th, when 47 girls were confirmed, and, together with a number of former inmates, received the Holy Communion at his Lordship's hands.

One hundred and thirty-eight rewards—a decrease of twenty as regards the boys, accounted for by the circumstanstances I have already noted—were given by the Committee to former inmates, who had maintained good characters in their situations. Twenty-six boys and thirty girls were rewarded for the first time; thirty-six boys and twelve girls for the second; and nineteen boys and sixteen girls for the third and last time.

The Boys' School at Witley is now in process of enlargement by the addition of two new dormitories, planned to accommodate about fifty additional children. Similarly the Girls' School has been judiciously re-arranged for the same additional number; so that it will soon be in your power to extend the benefits of the Institution very materially.

I am not aware that there is any other subject to which I need direct your attention.

Thanking you most sincerely for the constant support and encouragement I have received at your hands for the twenty-one years during which I have held my present appointment,

I have the honour to be,
My Lords and Gentlemen,
Your faithful Servant,
EDWARD RUDGE,
*Chaplain and Superintendent.*

WITLEY, *January 17th*, 1877.

3. Choir practice, and Brass Band, on alternate days, from 12 to 12.45 p.m.

4. Drill for School Boys, in summer from 5 to 5.45; and in winter from 12 to 12.45, when weather will permit.

The whole School to Drill twice-a-week during the summer months, after supper

* Half-an hour later in Winter Months.

## No. 10.

### LONDON.

### DAILY ROUTINE.

*Hours of Rising.*

Six o'clock in the summer months, and not later than 7 o'clock in the winter months.

After private prayer in each dormitory, washing, dressing, &c.

*On Week-days.*

The girls selected for employment in the Laundry and Kitchen, and in Household Work, to be engaged in their particular occupations, and the rest in making beds, and sweeping and cleaning the dormitories and other apartments on the female side.

*From* 8 *to* 9 *o'clock.*—Prayers, breakfast, and recreation.

Girls selected for particular employments to be at their respective occupations from 9 to 1 o'clock, as the Matron shall direct; and on alternate days at school during the same hours.

*From* 1 *to* 2 *o'clock.*—Dinner and recreation.

Girls selected for particular employments to be at their respective occupations, and the rest at needlework, from 2 till 5 o'clock, and in occupation from 5 till 6 o'clock, as the Matron shall direct.

*From* 6 *to* 7¾ *o'clock.*—Supper and recreation.

*From* 7¾ *to* 8 *o'clock.*—Prayer.

8 *o'clock.*—Bed-time.

*On Saturdays.*

No school to be kept, either in the morning or afternoon. The girls on this day to be engaged in cleaning the establishment, assorting and distributing clean linen, using the bath, and in such other occupations as the Matron shall direct. The recreation of the inmates to be, when the weather will permit, in the airing grounds, and at other times in the day-rooms, which are to be provided with suitable books for amusement and instruction.

*On Sundays.*

*Until* 8 *o'clock.*—The inmates to be occupied in *making beds, changing linen, and delivering up all that is dirty,* and preparing for the proper spending of the day.

*From* 8 *to* 10 *o'clock.*—Breakfast, and walking in the airing grounds, when the weather will permit

*From* 10 *to* 11 *o'clock.*—In school rooms, reading the Lessons for the day, repeating Catechism, and answering questions on scriptural subjects.

*From* 11 *to* 1 *o'clock.*—In Chapel for Morning Service and Sermon.

1 *o'clock.*—Dinner.

*From* 1½ *to* 3 *o'clock.*—In the day rooms, and airing courts.

3 *o'clock.*—Afternoon Service in Chapel and Sermon.

# BETHLEM HOSPITAL.

## REPORT.

To the Right Worshipful the PRESIDENT, the Worshipful the TREASURER, and the GOVERNORS of the Royal Hospital of Bethlem.

MY LORDS AND GENTLEMEN,

In conformity with the regulations of my office, I beg to present to you a Report on the proceedings in Bethlem Hospital during the year 1876, accompanied by the usual Statistical Tables.

| | Males. | Females. | Total. |
|---|---|---|---|
| Number of patients at the commencement of the year .. .. .. .. .. .. .. .. .. .. | 99 | 165 | 264 |
| Received during the year.. .. .. .. .. .. .. | 114 | 139 | 253 |
| Whole number treated.. .. .. .. .. .. .. | 213 | 304 | 517 |
| Daily average under treatment .. .. .. .. | 102 | 168 | 270 |
| Discharged recovered .. .. .. .. .. .. .. | 45 | 68 | 113 |
| Discharged uncured .. .. .. .. .. .. .. .. | 36 | 53 | 89 |
| Discharged for special reasons.. .. .. .. .. | 13 | 4 | 17 |
| Discharged—disqualified after admission .. .. | 1 | 5 | 6 |
| Died .. .. .. .. .. .. .. .. .. .. .. .. | 8 | 10 | 18 |
| Whole number discharged .. .. .. .. .. .. | 103 | 140 | 243 |
| Remaining in the Hospital .. .. .. .. .. .. | 110 | 164 | 274 |

It will be observed that 112 patients were sent out not recovered. Of this number 23 did not remain in the Hospital the full period of twelve months. In every doubtful case the Committee have always given the patient the benefit of the doubt, and allowed them to remain under treatment at least three months. This occurred in 17 cases. The remaining 6 patients were from various causes removed shortly after admission.

The average daily number resident of male patients was 102, of females 168; and of both sexes collectively, 270.

Calculated on the number of admissions the mortality was 6·78 per cent. on the male side, and 7·74 on the female side; calculated on the whole number of cases under treatment, it was 3·75 per cent amongst the males, and 3·28 amongst the females: giving 3·48 per cent. as the general death rate.

It will be seen from Table No. 19, that the assigned cause of death in 7 of these cases was general paralysis, and that 5 were in the Hospital less than a month. One female patient died three days after admission. By our rules we are supposed to exclude patients "whose condition threatens the speedy dissolution of life;" but of course it is impossible to reject such cases when once brought to the Hospital, though from the first there may be no reasonable prospect of recovery.

One of the male patients committed suicide by tearing off the hem of his sheet, and winding it tightly round his neck.

In this case there had been no suspicion of suicidal tendency, and after a careful investigation, it was not considered any blame could be attached to the officials. In consequence of this unfortunate occurrence I have organised changes in the system of night watching, and every patient is now visited at least twice in the night. This is in addition to the special list of patients visited every hour, or even more frequently if necessary.

In an asylum constructed like Bethlem, on the single room system, there are many difficulties in organising careful supervision during the night, without disturbing the patients, and the feeling of security may be obtained to the detriment of the inmates.

The recoveries amongst the males were 39·4 per cent. of the admissions, and 48·9 per cent. amongst the females; in all 44·6 per cent.

In making any returns, it must not be forgotten that Bethlem Hospital is only intended for curable cases, but unless the symptoms of mental disease have existed more than 12 months, it is very rarely that a case is rejected. During the last four years we have had 76 undoubted cases of general paralysis under treatment, and at the present time, out of 85 so called curable male patients, 16 are suffering from this form of disease; many of them in an advanced stage.

There has been an increase of 24 on the admissions, as compared with the year 1875—namely, 23 on the male side,

and 1 on the female side. We have however refused admission to many deserving female cases in consequence of want of room.

The following Table gives the results of the last ten years:—

| Years. | Admitted. | | | Cured. | | | Uncured. | | | Died. | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | M. | F. | T. | M. | F. | T. | M. | F. | T. | M. | F. | T. |
| 1867..... | 83 | 121 | 204 | 35 | 73 | 108 | 32 | 45 | 77 | 17 | 10 | 27 |
| 1868..... | 78 | 131 | 209 | 33 | 67 | 100 | 38 | 40 | 78 | 14 | 8 | 22 |
| 1869..... | 97 | 138 | 235 | 34 | 78 | 112 | 36 | 44 | 80 | 8 | 15 | 23 |
| 1870..... | 102 | 131 | 233 | 40 | 76 | 116 | 43 | 52 | 95 | 23 | 7 | 30 |
| 1871..... | 62 | 117 | 179 | 35 | 72 | 107 | 40 | 33 | 73 | 8 | 8 | 16 |
| 1872..... | 78 | 109 | 187 | 29 | 56 | 85 | 47 | 35 | 82 | 12 | 12 | 24 |
| 1873..... | 88 | 119 | 207 | 30 | 34 | 64 | 36 | 41 | 77 | 10 | 8 | 18 |
| 1874..... | 93 | 139 | 232 | 41 | 87 | 128 | 40 | 33 | 73 | 11 | 10 | 21 |
| 1875..... | 91 | 138 | 229 | 48 | 75 | 123 | 31 | 40 | 71 | 13 | 7 | 20 |
| 1876..... | 114 | 139 | 253 | 45 | 68 | 113 | 49 | 57 | 106 | 8 | 10 | 18 |
| Total .... | 886 | 1282 | 2168 | 370 | 686 | 1056 | 392 | 420 | 812 | 124 | 95 | 219 |

On October 13th two of the Commissioners in Lunacy visited the Hospital, and left the following Report:—

BETHLEM HOSPITAL,
13*th October*, 1876.

This Hospital and its branch establishment at Witley now has 295 patients on the books. Of these, 106 are men, and 189 are women. To-day 23 of the latter, and 8 of the latter are at Witley. The rest we have seen, excepting 8 male and 13 female patients absent on leave. The cases in charge comprise many general paralytics, and 55 of the patients are on the incurable list. Since the last visit of the Commissioners, which took place on the 3rd March, 1875, 416 of both sexes have been admitted, of whom 173 were received on the male, and 243 on the female side; 171 men, and 211 women have been, during that period, discharged, and 18 males and 14 females have died. The recoveries have amounted to 79 male and 116 female cases. Fourteen deaths appear to have resulted from general paralysis, exhaustion produced fatal consequences in 7 instances, 9 deaths are attributed to diseases of the heart or lungs, and 2 suicides have occurred (both by strangulation at night)—one of a woman, in an associated dormitory; the other of a man in a single room. The particulars of the first-mentioned suicide were long since communicated to our Board; the other has been matter of enquiry on our part. It took place a few days ago only, and has been the subject of the second Coroner's Inquest which has been held since last visit. It does not appear that the man was supposed to be suicidal, though he was known to be dangerous to others, and that was the reason he was placed in a single room. He does not seem to have been visited between 8 p.m. and 6 a.m., when he was found dead; but even if he had been visited, the

suicide might not have been earlier discovered, as he had covered himself up with the sheets. A piece of a sheet torn off was the means which he employed for self-strangulation.

Twenty-six post mortem examinations have been held; the general health is fair, and we have not to report the occurrence of any epidemic. An old gentleman, bed-ridden, and another prostrate from debility and in a sinking condition, were, to-day, the only cases in bed. Eleven male and 15 female patients are registered as taking medicine. No person was turbulent in either division, nor was any individual under restraint or in seclusion. There has not been a single instance of restraint, but the Records shew that seclusion has been employed in cases of 5 males and 16 females, with the former on 11, and with the latter on 96 occasions, usually for the whole day, and, in some few instances, for several days in succession. Two females were secluded on 57 out of the 96 occasions.

Many male patients were seen by us in their airing courts, as well as in-doors. The weather was not favourable for the ladies being out, and those we visited in the wards, where the means of amusement seem to be liberally supplied. The staff of attendants is well selected; they consist of 15 men, including the head attendant and 32 nurses, six of whom are chiefs of wards.

We are glad to report that, in this Hospital, there has been next to no change in the individuals who discharge the duties of attendants, a fact which must largely conduce to the comfort and welfare of the patients. On the female side there has been no vacancy created, save by a marriage, and only 2

male attendants have left. There has been no rise in the attendants' pay, but it is liberal. The night watch consists of 1 man in the male division, and 2 nurses on the other side. About 98 of the patients attend the Chapel Sunday Services. The Chaplain visits the wards, holds a singing class for both sexes on Tuesdays, and a Bible class on Fridays, he also reads prayers in the evenings in wards 3 and 4 on the women's side. With some exception, the dress of the patients was quite satisfactory. The dietary is unchanged, the dinners which we saw met our approval, and no complaint was made to us on this head—solely on the subject of detention, and by persons unfit for discharge. We, as usual, inspected every ward; the ventilation was generally excellent, but in ward No. 1 in the men's division, there was an offensive urinous smell in some of the single rooms, which we think can be rectified by attention to walls and floor. In a doubled-seated water closet there, we think it would be well to abolish one seat. No. 1 ward on the female side has been much enlivened by decoration and fresh papering, and with it No. 1 in male division now contrasts very unfavorably.

A little more colour should, we think, be introduced into the single rooms throughout the building. We nowhere found any want of cleanliness or order, and many of the wards are most comfortable. It cannot be doubted that this Hospital and the Convalescent Branch in connexion with it at Witley, are charities of incalculable value to the classes from which they draw patients, and that Dr. Williams deserves all credit for his successful management.

CHARLES PALMER PHILLIPS, } *Commissioners*
JAMES WILKES, } *in Lunacy.*

The Convalescent Establishment, at Witley, was opened May 9th, and closed November 30th; during this period 117 patients enjoyed its advantages.

This Establishment has now been incorporated with Bethlem Hospital for six years, and, though causing a great addition to the annual expenditure of the Hospital, it has conferred incalculable advantages on a very large class of patients, who, by its aid, have been restored to perfectly sound bodily health, and rendered less liable to a return of their mental disorder.

The usual means of recreation and amusement have been provided for the patients, and are most beneficial.

As I have stated in former Reports, difficulty has been experienced in finding suitable occupation for the male patients, who, as a rule, belong to a class above the artizan, and therefore decline to assist in our work-shops. About 20 per cent. will occupy themselves with light work in the garden, and I trust, before long, to inaugurate some system that will embrace a large number of those who at present pass their time in idleness.

The medical treatment of the patients has been most strictly attended to. Every patient, on admission, is carefully examined, and an exact record kept of his condition, progress, and of the treatment pursued. I may here express my high appreciation of the able and zealous assistance at all times rendered me by my colleague, Dr. Savage.

The conduct of the attendants and servants has been good. Since October, 1874, there has been only one change on the female side, and that was in consequence of the attendant leaving to be married.

This Report does not record any striking changes, but I am gratified to believe that the year that has passed, though an uneventful one, has not found any deterioration in the usefulness or efficiency of the Institution. The position of Superintendent of Bethlem Hospital is an anxious one, and I feel how much is due to the kind and cordial co-operation of my brother officers. The merits of Dr. Savage and Mr. Haydon are known to all the Committee, and I think it only just to record my appreciation of the earnest manner in which our Chaplain, the Rev. J. S. Vaughan, and the Matron, Miss Wright, assist me in their offices.

In conclusion I beg to express my gratitude to the President, Treasurer, and Governors, for their support and confidence.

I have the honor to be,
My Lords and Gentlemen,
Your very obedient Servant,
W. RHYS WILLIAMS, M.D.

Bethlem Hospital,
*January 27th*, 1877.

| Date of Death. 1876. | Date of last Admission. | Age at Death. Civil State. | Mental State and Bodily Condition on Admission. | Duration and Cause of Disorder. | Assigned Cause of Death. | POST-MORTEM APPEARANCES. | | |
|---|---|---|---|---|---|---|---|---|
| | | | | | | HEAD. | THORAX. | ABDOMEN. |
| May. | January, 1876. | 58 Married. | Melancholia. Weak. | Six months. Mental anxiety. | Exhaustion. Melancholia. | Calvarium narrow in front. Pacchionian bodies in excess. Brain wasted, 54 oz. Excess of fluid. Congestion of pia mater. | Fluid in right pleura. Emphysema of both lungs. In right lung a large old cavity. Scattered tubercle. | Liver fatty in patches. Kidneys small and granular. Wasted cortex. Heart not fatty. |
| May 22. | July, 1874. | 44 Married. | General paralysis. Moderate. | Twenty-two months. Sexual excess. | General paralysis. | Calvarium thick; larger on left half. Dura mater rather thick. No false membrane. Adherent to centre of skull and to arachnoid. Excess of fluid. Wasting of convolutions. Brain firm, 42¼ oz. Atheroma of vessels at base. Cord much wasted. | Old adhesions of right pleura. Both lungs congested at their bases. Heart with masses of fat on surface; this also penetrating the surface. | Liver nutmeggy. Kidneys normal. |
| May. | June, 1875. | 58 Married. | Exaltation. Good. | Two years. | General paralysis. | Calvarium normal. Membranes thick. Arachnoid with many opacities. Excess of fluid. Wasting of convolutions. White matter tough. Vessels full and twisted. Brain 49 oz. Cord much wasted. | Lungs congested at bases. Heart normal. | Kidneys congested, but healthy. Liver congested. |

| | | | | | | HEAD. | THORAX. | ABDOMEN. |
| June. | February, 1876. | 38 Married. | Weak minded. Weak. | Fourteen months. Drink. (?) | General paralysis. | Calvarium thin, dense, and diaphanous. Excess of fluid. Arachnoid with many opake spots. False membrane (blood) along base, most in middle fossa. Convolutions wasted. Excess of puncta. Fluid in excess in ventricles. Ice plant granulations on floor. Brain 42¼ oz. Cord slightly wasted. | Left lung adherent throughout. No emphysema or tubercle. Heart fatty on surface. | Liver with fatty patches. Kidneys with adherent capsules, and wasted cortex. |
| July. | October, 1875. | 53 Married. | Exaltation. Good. | Nine months. (?) | General paralysis. | Calvarium dense and congested. Dura mater thickened. Fluid blood on arachnoid surface. Pia mater much congested. Convolutions wasted. White matter firm, with many puncta. Brain 41½ oz. Cord wasted. | Lungs congested at bases. Heart fatty at surface. Atheroma of aorta. | Kidneys congested and fatty. Liver fatty. |
| Oct. 8. | July 28, 1876. | 23 Single. | Maniacal. Fair. | Five months. Injury to head. | Strangulation. Suicidal. | Calvarium normal. Dura mater dull and smooth. Excess of clear fluid in arachnoid. Some wasting of convolutions. Brain 47½ oz. | Lungs normal. Heart normal, rather large. | Liver congested. Kidneys congested; capsules adherent in patches. |

# OBITUARY.—MALES.—1876.

| Date of Death. 1876. | Date of last Admission. | Age at Death. Civil State. | Mental State and Bodily Condition on Admission. | Duration and Cause of Disorder. | Assigned Cause of Death. | POST-MORTEM APPEARANCES. | | |
|---|---|---|---|---|---|---|---|---|
| | | | | | | HEAD. | THORAX. | ABDOMEN. |
| Oct. 15. | Sept. 25, 1876. | 63 Single. | Melancholia. Weak. | Four months. Senile. | Peritonitis. Melancholia. | Calvarium thick and congested. Dura mater adherent generally thickened and rough. Arachnoid free. Excess of fluid. Pia mater easily separated from brain. Convolutions wasted. Brain softish. Two psammomatous tumours in in choroids. Brain 48¾ oz. Cord normal. | Lungs congested and œdematous; part adherent. | Liver fatty. Gall stones. Kidneys mottled; wasted cortex. |
| Dec. | April, 1876. | 32 Married | Melancholia. Weak. | Twelve months Anxiety. | Melancholia. General paralysis. (?) | Calvarium thin and dense. Dura mater adherent along centre; also adherent to membranes, which were so united that on removal the convolutions were exposed. Excess of fluid. Vessels full. Grey matter dark. White matter firm. Slight atheroma of vessels at base. Staining of dura mater at base from blood effusion. Brain 51½ oz. Cord wasted. | Right lung adherent at upper and outer part, where there was a large cavity with thick walls. Heart normal. | Liver nutmeggy and fatty. Kidneys with rather wasted cortex. |

|---|---|---|---|---|---|---|---|---|
| | | | | | | HEAD. | THORAX. | ABDOMEN. |
| Nov. 3. | Oct. 10, 1876. | 46 Widow. | Maniacal. Weak. | Three months. Climacteric and Phthisis. | Phthisis. General paralysis. | Calvarium dense, heavy, and pale; adherent to dura mater; effusion of a layer of dark blood over surface of dura mater, most over left half. Membranes easily separated from brain. Convolutions small; wasted. Large vessel and space round in centre of left thalamus. Brain 40 oz. | Right lung adherent throughout. Left lung adherent posteriorly. Numerous old cavities, and much scattered tubercle. Heart very firm and small; 6½ oz. | Liver congested and fatty. Kidneys contracted; adherent capsules. |
| Dec. 18. | Dec, 21, 1876. | 25 Single. | Acute mania. Very weak. | Six weeks. Drink. | Phthisis. Mania. | Calvarium dense and unsymmetrical. Dura mater very adherent. Pia mater adherent to brain. Brain wasted. Arachnoid opake. Excess of fluid. Brain 42 oz. | Both lung apices full of old tubercle, surrounded by recent pneumonic patches. One old cavity. Congestion of both bases. Emphysema at anterior edges. Heart flabby. | Liver very fatty; adherent to walls of abdomen by firm bands. Kidneys fatty; capsules free. |
| July. | April, 1875. | 40 Single. | Melancholia. Weak. | Fifteen months. Grief. | Ovarian disease. Melancholia. | Calvarium and dura mater normal. Arachnoid with opake spots. Grey matter thin. Brain soft. No excess of fluid. Brain 42¾ oz. | Lungs both congested at bases. Fluid in both pleura, most in right. No tubercle. Heart normal, except a jelly-like layer on surface of left ventricle. | Liver dark, soft, and friable. Gall bladder full of mucus. Kidneys wasted; capsules adherent. Right ovary enlarged with one large cyst full of colloid fluid. Left ovary large, but without cysts. |

## DIETARY TABLE.

### Breakfast.

| | | |
|---|---|---|
| Every Day.. | Males .. | Tea, with 7 oz. of Bread and Butter. |
| | Females.. | ,, 6 ditto |

### Dinner.

| | | | | | | | | |
|---|---|---|---|---|---|---|---|---|
| Sunday .... | Males | 6 oz. Boiled Beef free from bone | 4 oz. Bread, | ¾lb. Vegetables, | 1 pt. Beer. | | | |
| | Females.. | 5 ,, | ,, | 4 ,, | ½ ,, | ½ ,, | | |
| Monday .... | Males .. | 6 ,, Roast Mutton, | 4 ,, | ¾ ,, | 1 ,, | | | |
| | Females.. | 5 ,, | ,, | 4 ,, | ½ ,, | ½ ,, | | |
| Tuesday .... | Males .. | 6 ,, Boiled Mutton | 4 ,, | ¾ ,, | 1 ,, | | | |
| | Females.. | 5 ,, | ,, | 4 ,, | ½ ,, | ½ ,, | | |
| Wednesday.. | Males .. | 6 ,, Roast Beef, | 4 ,, | ¾ ,, | 1 ,, | | | |
| | Females.. | 5 ,, | ,, | 4 ,, | ½ ,, | ½ ,, | | |
| Thursday ..... | Same as Monday. | | | | | | | |
| Friday ..... | Same as Tuesday. | | | | | | | |
| Saturday.... | Males .. | 16 oz. Meat Pie, | 4 oz. Bread, | 1 oz. Cheese, | 1 pt. Beer. | | | |
| | Females.. | 14 ,, | ,, | 4 ,, | 1 ,, | ½ ,, | | |

### Supper.

| | | |
|---|---|---|
| Sunday, Monday, Tuesday, Thursday, and Friday | Males .. | Same as Breakfast. |
| Wednesday and Saturday.... | Males .. | 7 oz. Bread, 2 oz. Cheese, 1 pint Beer. |
| Every Day..... | Females.. | Same as at Breakfast. |

Patients in employment in the Grounds, Workshops, or Laundry, to be allowed 4 oz. of Bread, 1 oz. of Cheese or ½ oz. of Butter, and ½ a pint of Beer for Luncheon, and ½ a pint of Beer in the Afternoon.

Every Patient to be allowed 1¾ oz. Tea, 8 oz. of Sugar, 8 oz. of Butter, and 1½ pints Milk weekly.

On Christmas Day the Dinner to be Roast Beef and Plum Pudding.

On New Year's Day, a Mince Pie to be added to the usual fare.

On Good Friday, a Bun.

On Easter and Whit Monday, 6 oz. of Roast Veal to be allowed instead of the usual Meat for the day.

The Steward has liberty to vary the diet occasionally by Pork and Bacon, when Peas and Beans are in season; and by Fish, Fruit Pies, &c., when Fish and Fruit are plentiful and good.

The Sick to be dieted at the discretion of the Resident Physician.

The Attendants to have at all times the means of obtaining Gruel for such Patients as may require it.

The above to be considered maximum allowances, and all quantities unconsumed are to be taken in diminution of the next supply from the Stores of the Hospital.
